Single Window for Licenses for Import, Export and Transit of Goods and Tariff Quotas (EXIM)

www.exim.gov.mk

Slavica KUTIROV

Customs Administration of the Republic of Macedonia
WCO, Brussels, 23 January 2009

Introduction

- The realization of the EXIM project began in March 2007
- Members of Project Team:
 - Customs Administration – Project Coordinator
 - 15 other Government Institutions
 - USAID (Business Environment Activity and e-Gov Projects)
 - National Committee on Integrated Border Management
 - Ministry of Information Society
 - Business Community
 - Contractors ULTRA and PEXIM
- First EXIM modules became operational in November 2008

Goals

- To provide a single window for obtaining all licenses required for import, export and transit of goods
- To introduce paperless environment and electronic signature in the foreign trade operations of institutions and companies
- To create conditions for keeping up with the contemporary trends and standards of international trade
- To create an open system that will be connected and integrated with other IT systems
- To elevate the level of technical capability, efficiency and transparency of the operation of the institutions and the businesses

EXIM Users

Government

- Customs administration
- Ministry of interior
- Ministry of agriculture
- Phyto-sanitary Directorate
- Veterinary Directorate
- State inspectorate for agriculture
- Seed and seed materials Directorate
- Bureau for medicine
- Food Directorate
- State sanitary and health inspectorate
- Ministry of economy
- Bureau for metrology
- Ministry of environment and physical planning
- Ministry of culture
- Directorate for radiation security
- National bank

Trade

- Importers
- Exporters
- Carriers
- Brokers
- Freight Forwarders

Phases

- Analysis
- Data Harmonization and Standardization
- Planning and Design
- Legislative Framework Development
- Development of Software Application
- Installation of Hardware Equipment
- Pilot Implementation
- Promotion and Training for Users

Data Harmonization and Standardization

- Harmonized data requirements
 - Division of authority
 - Retracting of annexes to requests
 - Standardization of 66 various licenses
 - Implement central Management of Common Data
 - Create common data set of 80 harmonized and standardized data

Common Data Set (WCO DM)

Microsoft Excel - MK DATA MODEL 23 juni 2008.xls

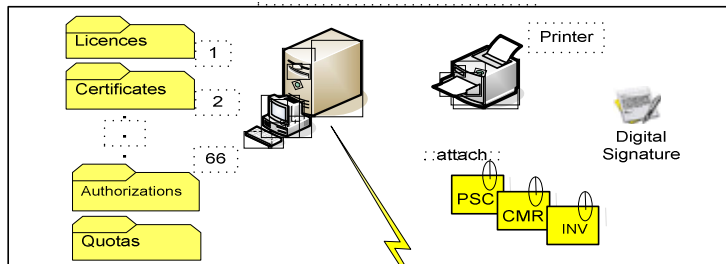

F1	A	B	C	D	E	F

How to become EXIM user?

- Good internet connection
- Valid e-mail address
- Valid digital certificate
- JAVA 1.6
- Macedonian language support on your computer

Further development

- Integration with the new Customs Data Processing System - CDPS
- Integration with the Integrated Border Management system – IBM
- Integration with the system for issuing transportation licenses
- Inclusion of the remaining authorizations and certificates

Benefits

- Service availability 24 hours, 7 days a week
- Saving of time and costs for businesses due to electronic submission of applications
- Increasing the efficiency of the licensing process and better legal certainty
- Standardized and harmonized data in the applications allowing more comprehensive exchange of information in future
- Electronic monitoring of the usage of licenses
- Electronic applications and transparent electronic allocation of tariff quotas

Legal Aspects

- Amendments of number of laws and regulations
- Government adopted specific Regulation for Establishing EXIM
- Voluntary for the businesses / Mandatory for government institutions
- No extra charge for using of EXIM

Lessons Learned

- Strong support and commitment from the highest political level
- Dedicated team of experts who worked on developing the system
- Define a strong rules and methodology for implementation
- Create an open system for further developments
- Focus on business needs

Thank you for your attention!
